

Successful bid price of gel battery storage project in South Africa 2025

Overview

The ambitious project, which carries a price tag of R9.5 billion, will be implemented across five strategic substation sites in the Free State province.

The ambitious project, which carries a price tag of R9.5 billion, will be implemented across five strategic substation sites in the Free State province.

Dubai, United Arab Emirates, 6th January 2025 – AMEA Power, one of the fastest-growing renewable energy companies in the region, announced today that it has been awarded two pivotal Battery Energy Storage Projects (BESS) projects through Bid Window 2 of BESIPPPP, organized by South Africa's.

Minister of Electricity and Energy Dr Kgosientsho Ramokgopa announced the successful signing of project agreements and the commercial close of an additional two projects appointed as preferred bidders under the first Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP).

The RfP calls for 616 MW/2 464 MWh of battery energy storage projects allocated to five preselected substation sites in the Free State – Harvard, Leander, Theseus, Everest and Merapi – identified by Eskom. In May 2025, South African independent power producer (IPP) Mulilo emerged as the preferred.

In an exciting development for South Africa's energy landscape, Independent Power Producers (IPPs) Mulilo and Scatec have been awarded the role of preferred bidders to develop a substantial 616 MW/2,464 MWh battery storage capacity. The ambitious project, which carries a price tag of R9.5 billion.

Battery prices are plunging globally, with a recent auction for 25GWh of lithium-ion battery modules in China seeing bids as low as \$51.6/kWh (R917/kWh) for four-hour storage systems. According to EE Business Intelligence, the bids were about 30% below last year's average, and the price shifts are.

Oslo, 30 May 2025: Scatec ASA has been awarded preferred bidder status for

the Haru BESS Battery Energy Storage Project totalling 123 MW/492 MWh in the third bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of. Why should we invest in battery energy storage in South Africa?

We applaud the South African government's commitment and dedication to the renewable energy procurement programmes. Battery energy storage will continue to play an important role in the energy transition, and we will continue to be at the forefront across our core markets," says Scatec CEO Terje Pilskog.

How much does Scatec's battery energy storage project cost?

The estimated total capex for the battery energy storage project is ZAR 2.2 billion (USD 120 million) of which Scatec's EPC contracts account for approximately 80%. The project will be financed by 90% non-recourse project debt and the remaining by equity from the owners.

When will a new battery procurement be based on the Integrated Resource Plan?

Electricity and Energy Minister Dr Kgosientsho Ramokgopa has said that any additional battery procurement will be based on the 2025 edition of the Integrated Resource Plan, which is being discussed at the National Economic Development and Labour Council (Nedlac). The Nedlac process should be concluded during June.

How much storage capacity is secured under the first grid-scale bid window?

The Department of Electricity and Energy has stated that the signing of the agreements with the additional two projects has secured a total of 360 MW/1440 MWh of storage capacity under the country's first grid-scale battery Bid Window.

How will Bess projects impact South Africa's Energy Security?

As South Africa continues to grapple with frequent blackouts and load shedding, these BESS projects will help mitigate risks and contribute to the country's energy security. The Gainfar Project will be connected to the Ngwedi substation, while the Boitekong Project will be connected to the Marang substation.

Successful bid price of gel battery storage project in South Africa 2

AGM + GEL Batteries , Solar Storage Batteries , Solar ...

Enjoy reliable power in your home or office with solar batteries from Sustainable . Browse our products & competitive prices online or contact us about your solar battery requirements.

Mulilo and Scatec Win the Spotlight with R9.5bn Battery Storage ...

The ambitious project, which carries a price tag of R9.5 billion, will be implemented across five strategic substation sites in the Free State province.

Mulilo and Scatec awarded projects in South Africa's ...

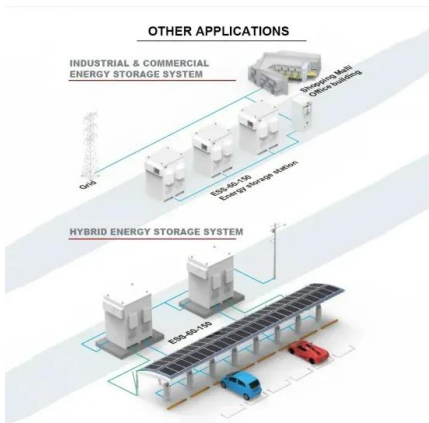

Mulilo and Scatec have won the five battery energy storage system projects offered in South Africa's latest battery energy storage independent power producers' procurement (Besipp) round.

114KWh ESS

Battery Energy Storage Independent Power Producer ...

Name of the Project Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) - Bid Window 2 (BW2). Location North West, South Africa. Project Owner/s Department of

South Africa Awards 16 Solar and Battery Energy Storage Projects ...

South Africa has released the list of preferred bidders for solar and battery storage projects to be developed under its Renewable Energy Independent Power Producer ...

REGULATORY ASSESSMENT OF BATTERY

EXECUTIVE SUMMARY South Africa is facing a deepening energy crisis. Households and businesses are facing rapidly escalating electricity costs, declining reliability and unpredictable ...
