

Successful bid price of household energy storage project in China 2026

Overview

According to local news reports, the tender attracted 76 bidders with quoted prices ranging from US\$60-82 per kWh, averaging US\$66.3 per kWh. Based on the 16GWh quantity, that implies a total contract value of roughly US\$1 billion. How much does energy storage cost in China?

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4. The tender attracted 76 bidders, with quoted prices ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh.

What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

How will powerchina select a qualified supplier for energy storage system equipment?

According to the previously announced plan by PowerChina, this tender aims to select qualified suppliers for energy storage system equipment for 2025-2026. After the selection, a framework agreement will be signed.

Successful bid price of household energy storage project in China 2

Summary of Global Energy Storage Market Tracking ...

Figure 3: Installed capacity of new energy storage projects newly commissioned in China (2023.H1) In the first half of the year, the capacity of domestic energy storage system which completed procurement process ...

[2H 2023 Energy Storage Market Outlook](#)

The case for long-duration energy storage remains unclear despite a flurry of new project announcements across the US and China. Global energy storage's record additions in 2023 will be followed by a 27% compound ...

China price tracker: energy storage winning bids ...

This report analyses the winning bid price trends of energy storage systems and turnkey EPCs in China's utility-scale and C& I energy storage market in H2 2024.

Summary of Global Energy Storage Market Tracking (Q2 2023)

Figure 3: Installed capacity of new energy storage projects newly commissioned in China (2023.H1) In the first half of the year, the capacity of domestic energy storage system ...

BESS prices in US market to fall a further 18% in ...

China-headquartered Sungrow provided the BESS units for this project in Texas, US. Image: Revolution BESS / Spearmint Energy. After coming down last year, the cost of containerised BESS solutions for US-based buyers ...

Anticipating Global Surge: Household Energy Storage Gains

According to TrendForce statistics, the projected global installed capacity increment in 2024 is as follows: large-sized energy storage takes the lead with ...

Battery Report 2024: BESS surging in the "Decade of ...

In this second instalment of our series analysing the Volta Foundation 2024 Battery Report, we explore the continued rise of Battery Energy Storage Systems (BESS).

China price tracker: energy storage winning bids ...

Report summary This report analyses the winning bid price trends of energy storage systems and turnkey EPCs in China's utility-scale and C& I energy storage market in H2 2024. It is based on the prices from all the ...

Cost, shipping, energy density drive move to 5MWh ...

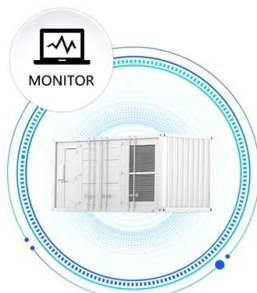

That larger increase is primarily down to new tariffs imposed by the US on battery products from China, which CEA previously said would increase BESS prices by 11-16%. However, the firm's chart implies the price ...

PowerChina begins construction of 1GW/6GWh BESS project

Notably, China Industrial Association of Power Sources (CIAPS) data reveals that the average bidding price for energy storage systems in 2025 has dropped to CN¥0.4687/Wh, ...
