Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install one of the largest energy storage systems in Nepal, with a total battery capacity of 4MWh. This installation will.

Analysts predict tender prices for utility-scale batteries could drop by 18-22% by 2025 compared to 2023 levels, thanks to: Raw material cost stabilization (goodbye, lithium price rollercoasters?

) While lithium-ion batteries still dominate 78% of tenders (no surprise there),

2025 could be the year.

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) to install one of Nepal's largest energy storage systems, with a total battery capacity of 4MWh. This initiative aims to help industries.
