I need to know. Is this good or bad for Superman? : r/deathbattle

It was magic that caused Superman to sneeze a solar system away, not his own power. And the distinction absolutely matters because the difference between a dead solar system and a full-on galaxy is huge. The DB crew on Twitter stated Superman to have

Saitama's Serious Sneeze Calculation (OPM Solar System)

A human sneeze occurs in 0.3 or 0.7 seconds, so off the bat, it's already fast ($91,137.50 \text{ km} / 0.7 = 130196 \text{ km/s}$ or $0.4c$ /Relativistic.) And again, this is lowballing because we're assuming he's sneezing at the same time as a human off this value, even though we

Saitama(One Punch Man) vs Superman(DC Comics) who wins?

A more equal battle would be Golden Age (later yrs headin into the Silver Age continuity). Post-crisis (early yrs until 2005ish) is also similar to current Saitama. Superman's sneeze blows away solar systems much better that Saitama on Jupiter, bench pressed
