

The price of installing a photovoltaic panel on the ground

Overview

The cost of an average 4kW-5kW ground-mounted solar system for a 3-bedroom house in the UK ranges from £8,500 - £10,200. However, you can save anywhere from £930 - £1,121 yearly. How much do ground-mounted solar panels cost?

Earlier, we touched on how ground-mounted solar panels tend to be more expensive than roof-mounted varieties – specifically, around 25 to 35 per cent more. But how much is that exactly?

Well, estimates place the cost of a typical ground-mounted solar array in the UK at between £10,000 and £15,000 (and that's not even including installation).

How much does a ground-mounted solar system cost?

Ground mounted solar panels are 20%-25% more efficient than rooftop solar panels, as they can be positioned in the ideal direction and angle to maximise energy production and they have a lower degradation rate. The cost of an average 4kW-5kW ground-mounted solar system for a 3-bedroom house in the UK ranges from £8,500 - £10,200.

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

How much do solar panels cost in the UK?

The average cost of a solar panel system in the UK is £7,026 for a three-bedroom house, but ground-mounted solar panels should cost a little more than this. To give you an idea, an average system would set you back between £8,000 and £15,000.

Can you install solar panels on the ground?

Solar panel installations are subject to 0% VAT, and a 4kW-5kW system with SEG can save £640 - £685. You must have heard about rooftop solar panels, but did you know that you can also install solar panels on the ground?

Ground mounted solar panels are installed on the ground instead of the roof.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500 whereas polycrystalline solar panels cost about £900 per kW.
