

The scam of installing photovoltaic solar panels is revealed

Overview

The U.S. government does not provide free solar panels, an Energy Department spokesperson told PolitiFact. Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways ‘fake’ solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Are solar panels being targeted by fraudsters using feed-in tariffs?

Households that have already installed solar panels are also being targeted by fraudsters using publicly available information from feed-in tariffs, warned Dr Tim Jones, of Cornwall-based charity Community Energy Plus.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your

panels were installed.

What should I do if a solar business is a scam?

Protect your personal information. Don't respond to unexpected requests online or on social media for your name, address, or other personal information to "see if you qualify." At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammers trying to steal your identity.
