Who are the best solar companies in Washington?

An increasing number of Washington residents are switching to solar, and more are looking for reliable installers in the process. With our analysis of the state's solar providers, we can help. According to our research, the best solar companies in Washington are Blue Raven, Lumio, Tesla and SunPower.

Is Washington a good state for solar energy?

Washington is a great state for solar energy despite its rainy weather. Companies in the area, such as IKEA, Walmart, and FedEx, all power their facilities using renewable energy, and more and more homeowners are making the switch. We researched dozens of solar companies to determine the best options for Washington homeowners.

How many solar companies are there in Washington State?

With 148 solar companies operating in Washington, residents enjoy a range of options to choose from. Solar panel buyers willing to go with a reputable brand can opt for SunPower or Tesla, while those looking for a fast installation can go with Lumio.

Are solar panels a good investment in Washington?

Despite Washington's cloudy, rainy weather, homeowners can still benefit from solar panels. Whether you're looking to save on your power bill or cash in on government incentives, we did the research for you to find the best Washington solar panel companies in business.

How do I choose a solar installer in Washington?

When you're choosing an installer, it's wise to pick one that has years of experience serving Washington specifically. Solar providers that are familiar

with your location will likely be able to help you take advantage of state benefit programs as well as perks offered by municipalities and individual utility companies.

How much do solar panels cost in Washington State?

Here's a look at the average cash price for a typical solar panel system in Washington state before factoring in tax credits and incentives, according to data from FindEnergy.com. The average cost for solar panels falls in line with the national average of \$3.67 per watt.
