Local opinion: ACC, TEP should bring back net metering

Until TEP can supply Tucson's electricity from renewable sources, it should continue offering net metering to customers willing to supply their own electricity.

Tucson Electric, solar groups pan rate proposal

Tucson Electric Power Co. says proposed new rates for excess energy provided by customers who install new rooftop solar systems are too high and would shortchange the company and other ratepayers.

[TEP to Propose Revised Net Metering Plan in](#)

Tucson, Ariz. -- Tucson Electric Power (TEP) plans to file a request later this year for new 2017 rates that will include fair-market pricing for the excess energy produced by rooftop solar arrays. TEP plans to incorporate the revised net metering plan it proposed earlier this year for new users of rooftop solar power systems in that rate request.

TEP seeks reduced net metering benefits for new home solar ...

New, Tucson Electric Power home solar customers who use net metering to save on their electric bills would get their savings cut by a \$22-a-month average under a new ...

Arizona net-metering decision may slow solar adoption

The Arizona Corporation Commission voted on Tuesday to scrap net metering -- a process where customers are credited for excess solar-energy production at retail rates -- in favor of a lower

What's solar worth? Inside Arizona utilities' push to reform net
