**UPS Power Supply & Battery Backup: UPS Battery, Surge ...**

It's not just a glorified power bank, because the UPS detects interruptions in the power and automatically switches the connected devices to running off the UPS battery, so they don't shut down. This makes a UPS battery backup especially valuable for computers, preventing work from being lost or files from being corrupted by an improper shut-down.

### UPS Battery Backup: Uninterruptible Power Supply

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating power.
