

Ups ground lithium battery

Overview

Can I send lithium-ion batteries with ups?

In most cases we've seen, you'll only be allowed to send lithium-ion batteries with UPS if the batteries are packed within the equipment they power, and if the item you're sending is brand new with unopened packaging. If that's the case, you'll need to meet the following requirements to ship with any UPS service you like:

Does ups approve new lithium batteries?

Customers must repeat the approval process for any new lithium metal cells or batteries that are periodically added to their shipping inventory. UPS retains full discretion to approve or deny this request, and may also rescind approval at its sole discretion, at any time.

Does USPS ship lithium-ion batteries?

USPS isn't the only game in town when it comes to shipping lithium-ion batteries; you can use other carriers like UPS, too! The thing is, UPS also considers lithium-ion batteries as a type of hazardous material, so you'll need to follow a certain process when it comes to shipping them. We've laid out what you need to do below.

What types of batteries should I pack and ship?
