

What to look for in a solar panel

Overview

How do I choose the best solar panels?

Check the solar panels you choose have MCS (Microgeneration Certification Scheme) certification. This ensures they meet specific quality and performance criteria. Take the time to research local solar panel installers in your area and shortlist those with MCS certification.

What should I look for when buying solar panels?

When you purchase solar panels, there are some key things to look for, including: Check the solar panels you choose have MCS (Microgeneration Certification Scheme) certification. This ensures they meet specific quality and performance criteria.

How do I know if my solar panels are efficient?

Take a look over your past electricity bills and usage patterns to get a gauge of this. However, for expert guidance, contact a solar panel specialist in your area. Different types of solar panels will have different levels of efficiency. This means how much sunlight the panels convert into usable energy.

Why should you choose a solar panel system?

Sunlight is free, so once you've paid for the initial installation, your electricity costs will be reduced. Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK.

How do I choose a solar panel for my roof?

Decide on how much of your electricity bills you want to cover with your solar panel usage — this can be anything from 10-100%. Your decision will affect the system size and costs. Calculate how many solar panels fit your roof. An average solar panel takes about 1.44 m² of roof space. Don't forget to include at least 30 cm from the roof's edge.

Are solar panels a good choice for your home?

This means how much sunlight the panels convert into usable energy. As you might imagine, the best solar panels from an efficiency point of view tend to be more expensive. However, they can generate more electricity in a smaller space. For this reason, they're an ideal choice for homes with limited roof space.
