

Where to deal with solar panels

Overview

If you think your energy supplier is charging you over the odds, and you'd like to look around for a better deal, don't be put off just because you've got a tariff arrangement. Whether you have the Feed-in-Tariff or Smart Export Guarantee with a particular energy supplier, you can still switch to a different supplier for your.

An export tariff is money paid out by most energy companies (certainly all the big ones) for the electricity you generate at home. It also pays you for the electricity you sell or "export" to the.

All export payments are set by Ofgem – so there's no need to compare energy companies, or switch for a better deal on your payments. If you want to switch energy suppliers, it's a.

All the main energy companies – including British Gas, EDF, E.ON, Npower, and ScottishPower, as well as OVO Energy – must offer export.

No – you don't have to stay with the same licensee forever. You can change whenever you want. And if you want to transfer from FIT payments to SEG payments, you can do that, too. Be aware that you can't claim both.
