

Wholesale business energy storage price list in Serbia

Overview

How much does electricity cost in Serbia?

Industry-specific and extensively researched technical data (partially from exclusive partnerships). A paid subscription is required for full access. In September 2024, the average wholesale electricity price in Serbia decreased to 107 euros per megawatt-hour from 127 euros per megawatt-hour the previous month.

What should Serbia do with the electricity integration package?

Serbia should focus on the transposition and implementation of the Electricity Integration Package as a precondition for the coupling of its short-term markets. Serbia should certify the gas transmission and storage operators, grant third party access at the interconnection points, and remove any other obstacles to new market entrants.

How much electricity is consumed in Serbia in 2022?

Traded volumes on the day-ahead market were increasing and resulted in 10,5 TWh in 2022. This amounts to over 30% of final electricity consumption. The state-owned company producer and supplier Elektroprivreda Srbije (EPS) continues to be a dominant player in the Serbian electricity market.

When is the intraday electricity market launched in Serbia?

The intraday electricity market was launched in July 2023. Serbia should focus on the transposition and implementation of the Electricity Integration Package as a precondition for the coupling of its short-term markets.

What is the legal setup of the Energy Agency of Serbia?

The legal setup governing the Energy Agency of the Republic of Serbia (AERS) is largely in line with the Energy Community legislation. However, the autonomy of the management related to internal organization and the use of the annual budget is limited by the requirement of the Parliament to adopt

statutes and hire additional staff.

Should Serbia transpose the security of gas supply and storage regulations?

Serbia should transpose the Security of Gas Supply and the Storage Regulations. Regulation (EU) 2019/941 on Risk-preparedness in the Electricity Sector should be transposed and its implementation should start with the designation of a competent authority. Serbia made moderate progress in the area of environment.
