

# **Wind turbine competition landscape**

## Overview

---

What is the global wind turbine market?

The global wind turbine market is moderately fragmented. Some of the largest companies in the market (in no particular order) include Vestas Wind Systems AS, Siemens Gamesa Renewable Energy SA, General Electric Company, Nordex SE, and Suzlon Energy Limited, among others. Need More Details on Market Players and Competitors?

.

Which region dominated the global wind turbine market in 2020?

Region wise, Asia-Pacific dominated the global wind turbine market in 2020, and is projected to remain the fastest growing segment during the forecast period. This is attributed to numerous factors such as a large consumer base and rapid increase in demand for renewable source of energy.

How is the wind turbine market research report segmented?

The Wind Turbine Market Research Report is Segmented by Location of Deployment (Onshore and Offshore), Capacity (Small, Medium, and Large), and Geography (North America, Europe, Asia-Pacific, South America, and Middle East and Africa).

What is the driving factor of wind turbine market?

However, rise in sustainable energy demand led to increase in demand for wind power, which, in turn, increases the demand for wind turbine, acting as the major driving factor for the market. The wind turbine market is segmented on the basis of axis type, installation, component, application, and region.

How big is the wind turbine market in 2024?

The Wind Turbine Market is expected to reach 145.66 gigawatt in 2024 and grow at a CAGR of 45.66% to reach 955.08 gigawatt by 2029. General Electric

Company, Vestas Wind Systems A/S, Nordex SE, Suzlon Energy Limited and Siemens Gamesa Renewable Energy, S.A. are the major companies operating in this market.

How much is the wind turbine market worth in 2021?

Individual sections of the reports are available for purchase. Would you like to see a breakdown of prices by section?

Wind turbine market is projected to reach \$98.4 billion by 2030, growing at a CAGR of 6.3% from 2021 to 2030.

## Wind turbine competition landscape

---

### South Africa Wind Energy Market Size , Mordor Intelligence

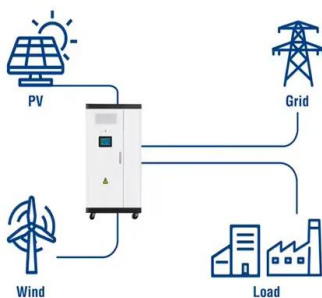

The wind energy market in South Africa is expected to grow at a CAGR of 3% during the forecast period. With auctions for multiple projects and ambitious goals to achieve in the future, South ...

### Landscape Visual Impact Evaluation for Onshore Wind Farm: A ...

Wind energy is an effective solution for achieving the carbon-neutrality target and mitigating climate change. The expansion of onshore wind energy evokes extensive ...

### Utility-Scale ESS solutions

### Wind Turbine Market Size, Share, Outlook, Growth and Forecast

Wind turbine market size was valued US\$ 58,278.2 million in 2023 set to reach at US\$ 85,907.5 million by 2030, at a robust CAGR of 5.7% from 2024 to 2030.

### Recent developments and issues of small-scale wind turbines in ...

But the urban landscape and the physical challenges restrict the erection of small-scale wind turbines. Further, a significant degree of uncertainty leads to a lack of ...

### Wind Turbines & the Landscape: Architecture

This is the first of two reports on wind turbines and aesthetic design. The second is The Landscape Impact and Visual Design of Windfarms by Caroline Stanton. There is also a discussion of aesthetics in chapter eight of ...

### **A cluster analysis of the global wind power industry: Insights for**

As this study aims to elaborate on how the firm's network position within the global wind energy industry influences the firms' competitive progress, we conduct an industry ...

### **Recent developments and issues of small-scale wind turbines in ...**

Wind energy harvesting in residential areas is one such approach. But the urban landscape and the physical challenges restrict the erection of small-scale wind turbines. ...

## Collegiate Wind Competition 2024 , Department of Energy

The 2024 U.S. Department of Energy Collegiate Wind Competition (CWC) called on teams to develop solutions to the siting, development, and outreach challenges associated with fixed ...

### [Wind Turbine Market Size, Share](#)

The Wind Turbine Market size is expected to reach 145.66 gigawatt in 2024 and grow at a CAGR of 45.66% to reach 955.08 gigawatt by 2029. Reports. This dynamic landscape highlights ...

## Chapter 6: Landscape and Visual Impact Assessment

Landscape Capacity - summary of relevant guidance contained within the Landscape Sensitivity to Wind Energy Development in Lancashire' report. Information Gaps- Summary of any gaps ...

### **Wind Turbine Market Size, Share, Growth & Analysis Report**

The global wind turbine market was valued at USD 57.68 billion in 2022 and is estimated to reach approximately USD 106.50 billion by 2031, at a CAGR of 7.0% from 2023 to 2031.. Since its ...

## Wind Power Converter Market Report , Global Forecast From

Chapter 17 Competition Landscape 17.1 Wind  
Power Converter Market: Competitive Dashboard  
17.2 Global Wind Power Converter Market:  
Market Share Analysis, ...

### [Wind Turbine Market Size, Share](#)

This dynamic landscape highlights the wind turbine industry's critical role in the global shift towards more sustainable energy solutions, as detailed in market reports by Mordor Intelligence(TM), which provide a global market outlook, price ...

### **The eyesore effect: are wind farms a blemish on the landscape?**

A 2011 report commissioned by the UK Crown Estate warned that the country's offshore wind power development could be hampered by a lack of land-based demonstration ...

### **Siting and Designing Wind Farms in the Landscape**

2. Wind Turbine Design and Layout 2.1 The landscape and visual impacts of a wind farm are strongly influenced by the design and layout of the turbines. This section focuses upon the ...

### Reflective Cylindrical Wind Turbine Art Communicates the Poetry of Wind

One of 25 designs shortlisted in the 2018 Land Art Generator design competition for Melbourne, Rotor incorporates Savonius vertical axis wind turbines (VAWT) to ...

### Wind Turbine Market Size, Share, Competitive ...

Key Market Dynamics. The adoption of wind energy as a clean, renewable source is expected to drive the growth of the wind turbine market during the forecast period. The primary reason behind the adoption of wind power is its potential ...

### Competitive Strategy for Entering Wind Turbine Manufacturing ...

Onshore wind turbine - wind turbine that is designed to be installed on land. Offshore wind turbine - wind turbine that is designed to be installed on sea. Some offshore wind turbines are ...

### [Global Wind Turbine Industry to 2025](#)

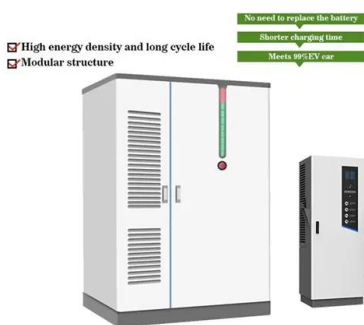

The report offers in-depth analysis of the wind turbine market at global, regional (Americas, Asia-Pacific, and Europe Middle East and Africa) and key countries (the US, ...

### NextEra Energy (NEE): Porter's Five Forces Industry and Competition ...

Technological Expertise: NextEra Energy has developed expertise in various energy technologies, including wind, solar, and nuclear power. New entrants would need to ...

### research paper Harnessing Wind Power Navigating the EU energy

Current landscape of wind energy in the EU ? Wind turbines are renewable energy devices that harness the wind's kinetic energy and transform it into electricity. There are two main types of ...

### Global Direct Drive Wind Turbine Generators Competition, ...

The "Global Direct Drive Wind Turbine Generators Competition, Market," valued at \$6.5 Billion in 2024, is projected to reach \$12.27 Billion by 2031, reflecting a CAGR ...

### Lithium Solar Generator: \$150

### UK Offshore Wind Industrial Growth Plan

The IGP identifies five key technology areas in which the UK should prioritise investment to secure value for UK industry. These include the design and manufacture of offshore wind blades and turbine towers, ...

## India Wind Turbine Market Size, Share & Forecast to ...

The Government of India has taken a major policy push to develop offshore wind power segment in India. India has a strong local wind turbine manufacturing ecosystem with major global and Indian players present. These companies ...

## Succeeding in the global offshore wind market

This article describes the offshore wind opportunity, progress at the regional and country levels, and tailwinds that could support growth. It also discusses the challenges companies could face and how success in four ...

## South Lanarkshire Landscape Capacity Study for Wind Energy

6.3 Wind Turbine Landscape Typology: Proposed Maximum Development Capacity 6.4 Wind Turbine Development Constraints and Opportunities APPENDICES Appendix 1: Local and ...

## Urban Wind: An Alternative for Sustainable Cities

The climate emergency has intensified the search for the generation of electricity from renewable energies in order to turn cities into sustainable cities. Small-scale ...

## Global Wind Report 2024

The report highlights increasing momentum on the growth of wind energy worldwide: Total installations of 117GW in 2023 represents a 50% year-on-year increase from 2022. 2023 was a year of continued global growth - 54 ...

## A Study of Landscape Sensitivities and Constraints to Wind Turbine

Consultants (LUC) to prepare a draft study to identify the particular sensitivities and constraints of the landscape to wind turbines. The study has been developed in conjunction with a steering ...

## [8 Examples of Wind Powered Architecture](#)

Wind energy is a type of renewable energy obtained from the wind, or in other words from the movement of air masses transferring from areas of high atmospheric pressure ...
