

World Cup Solar Power Station

Overview

Is a photovoltaic power station a green legacy for the 2022 World Cup?

Since a capacity crowd cheered at the opening on Nov 20 of the 2022 FIFA World Cup at the brilliantly lighted Al Bayt Stadium in Doha, the capital of Qatar, a stable supply of clean power from a photovoltaic power station built by a Chinese company has been contributing to the global sporting event, providing a major green legacy.

Who built Al Kharsaah photovoltaic power station?

The 800-megawatt Al Kharsaah photovoltaic power station, Qatar's first nonfossil-fuel power station, was independently built by Power-China Guizhou Engineering Co.

Who built Qatar's first solar power plant?
