

Xcel energy solar panels

Overview

How does Xcel Energy manage solar applications?

Solar applications are typically managed by the solar installer through Xcel Energy's Distributed Energy Resource (DER) Application Portal. It's important to Xcel Energy that your personal data is protected, therefore your solar installer will need to register by creating a unique username and password to login.

Does Xcel Energy offer net energy metering?

Important Note: Xcel Energy highly recommends that construction of your system SHOULD NOT commence until your application receives full approval from the Xcel Energy engineering team and all final agreements are fully signed. Net Energy Metering (NEM) is your non-incentivized solar option. All solar customers receive net energy metering benefits.

Can Xcel Energy install solar panels?

If you want to install solar panels to produce your own clean energy, we can help. Important Note: Xcel Energy highly recommends that construction of your system SHOULD NOT commence until your application receives full approval from the Xcel Energy engineering team and all final agreements are fully signed.

When should Xcel Energy install a solar system?

Xcel Energy highly recommends that the system not be installed until the application has passed all the engineering reviews. Solar applications are typically managed by the solar installer through Xcel Energy's Distributed Energy Resource (DER) Application Portal.

How do I register for Xcel Energy?

It's important to Xcel Energy that your personal data is protected, therefore your solar installer will need to register by creating a unique username and

password to login. The person managing the application process should create the account. Once logged in, the application process can begin!.

Can Xcel Energy generate my own electricity?

Generate your own electricity and get credit for producing more than your monthly usage. Important Note: Xcel Energy highly recommends that construction of your system **SHOULD NOT** commence until your application receives full approval from the Xcel Energy engineering team and all final agreements are fully signed.
