

Xingda Steel Cord Photovoltaic Panel Manufacturer

Overview

What is Xingda Group?

Xingda Group is a China supplier of glue stick, crayon, and painting materials. Established in 1978, the company specializes in the producing of white glue, glue sticks, crayons, glitter glue, paint materials, and plastic products. Xingda Group has gained a well reputation from home and abroad and welcomes visitors to its factory.

Where is Xingda made?

XINGDA has its own production facilities in China, but also provides other solutions through strategical partner factories. China has many excellent PCB factories, only small parts of them have export business, like the visible top of iceberg.

How many countries does Xingda have a trademark?

We registered the “XINGDA” trademark in 118 countries and regions. We provide products and technical services to more than 300 clients in over 40 countries and regions. Steel cord is mainly used as reinforcement material in tyres of cars, light trucks, heavy-duty trucks, off-the-road vehicles, and for some other rubber products.
