ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a vertical Energy Storage System (ESS) unit. It is a grey cabinet with a black top and bottom. Two vertical green lines run down the center of the cabinet. In the middle, there is a blue hexagonal shape with two black arrows pointing downwards. The letters "ESS" are printed in green in the upper right corner of the cabinet. At the bottom, there are two yellow triangular warning symbols with a lightning bolt inside, indicating high voltage or electrical hazard.

Overview

What is Tianheng energy storage?

The move marks a step forward in terms of longevity and scalability of energy storage and intensifies the competition in the sector. The system, called Tianheng, is capable of mass production with zero attenuation in the first five years. The system can generate a high energy of 6.25 megawatt-hours within a standard 20-foot shipping container.

How much energy can a Tianheng energy system produce?

The system, called Tianheng, is capable of mass production with zero attenuation in the first five years. The system can generate a high energy of 6.25 megawatt-hours within a standard 20-foot shipping container. This upgrades the energy density by 30 percent per unit area, the company said.

What is the energy density of a tener storage system?

The energy density of the storage system is 430 Wh/L with a total capacity of 6.25 MWh, which CATL claims is the highest in the world. Tener has a cycle life of more than 15,000, which is 1.7 times the current mainstream level, and will not decay in the first five years of its 20-year life expectancy, CATL said.

What is a tener energy storage system?

Tener is a standard 20-foot containerized energy storage system equipped with CATL's energy storage-specific L-series long-life lithium iron phosphate cells. The energy density of the storage system is 430 Wh/L with a total capacity of 6.25 MWh, which CATL claims is the highest in the world.

Should energy density and charging technologies be improved?

Though improvements in energy density and charging technologies should help eke more time away from the charger, zero degradation is the ultimate goal.

What will CATL's energy storage business be like by 2030?

CATL's chairman Robin Zeng estimated last year that by 2030, the energy storage business revenue would be comparable to the automotive battery business. (\$1 = RMB 7.2323)

YouTube Comments on Tianheng Energy Storage System

World first energy storage unit demonstrates zero degradation ...

CATL is no stranger to energy storage, having been involved with the Zhangbei wind/solar energy storage facility from 2011, moving indoors in 2020 for Phase I of the Jinjiang ...

CATL launches Tener energy storage system with 5-year 0

Chinese battery giant Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750) has launched its new energy storage system Tianheng, or Tener, to further tap the ...

[CATL launches TENER energy storage system](#)

The introduction of the Tianheng energy storage system is expected to further solidify CATL's position in the energy storage field. CATL. Gasgoo not only offers timely news ...

Energy Storage System

CATL's energy storage systems provide users with a peak-valley electricity price arbitrage mode and stable power quality management. CATL's electrochemical energy storage products have ...

CATL launches Tianheng energy storage system with 5-year 0

The company rolled out Tianheng at an event on April 9, saying it is the world's first mass-producible energy storage system with 0 degradation for 5 years. Tianheng is a standard 20 ...

CATL launches Tianheng energy storage system with 5-year, zero ...

The company rolled out Tianheng at an event on April 9, saying it is the world's first mass-producible energy storage system with 0 degradation for 5 years. Tianheng is a standard 20 ...

Chinese Battery Giant CATL Releases Tianheng Storage System, ...

On April 9th, CATL released its new energy storage product - the "Tianheng" energy storage system, which is the world's first energy storage system that can achieve 5 ...

BYD launches next-gen energy storage system MC Cube-T

The Tianheng is a standard 20-foot containerized energy storage system powered by CATL's energy storage-specific L-series long-life lithium iron phosphate cells. The ...

Battery Giant CATL Unveils More Efficient Energy Storage System

What's new: Chinese battery-maker Contemporary Amperex Technology Co. Ltd. (CATL) (????) has launched what it claims is the first mass-produced energy storage ...

CATL beats Tesla Megapack to a massive 6.25 MWh storage

Called Tianheng, the container storage system offers 430 Wh/L energy density in its LFP cells, returning a record 6.25 MWh capacity. For comparison, Tesla's Megapacks ...

CATL Tianheng Energy Storage System: 6.25MWh! 5 Years Zero ...

April 9th 2024, CATL released the world's first energy storage system with zero attenuation for 5 years and can be mass-produced on a large scale - Tianheng. CATL ...

CATL's New "Tianheng" Energy Storage System Expands the ...

CATL released the Tianheng Energy Storage System, the world's first energy storage system with zero degradation over five years. This system can be mass produced on a large scale, ...

APPLICATION SCENARIOS

CATL Launches Tianheng Energy Storage System: 5-Year 0

Tianheng, a 20-foot containerized system, boasts the highest energy density at 430 Wh/L and a total capacity of 6.25 MWh. It features over 15,000 cycles, 1.7 times the ...

CATL releases Tianheng energy storage system! Zero

It is worth mentioning that the Tianheng energy storage system can not only achieve zero attenuation of power and capacity for 5 years, but also achieve high energy of 6.25 MWh in a ...

CATL unveils 'zero degradation' battery storage system, Tener

That political pressure even led to physical CATL BESS units being disconnected and then ultimately decommissioned by US utility Duke Energy, albeit at a ...

CATL launches Tener energy storage system with 5 ...

The Chinese battery giant's revenues are now mainly contributed by power batteries, while its energy storage business is growing rapidly. CATL's revenue for the full year of 2023 was RMB 400.92 billion ...
